

## Viewing 3D Models

- 1 When you receive your email, one of the attachments will be a .pdf of your model in 3D.
- 2 To view the 3D model on your email you will first need to download the free version of eDrawings which is found in **Support** or by clicking on this link: <https://www.edrawingsviewer.com/download-edrawings>
- 3 You can then move your drawing around by clicking and holding down your left mouse button to view your drawing from different angles. There are other useful functions too!
